Dear Rama,

On behalf of Tenaga Nasional Berhad (TNB, Malaysia), I would like to thank you for the comprehensive Gatecycle Thermodynamic Modeling & Performance Analysis training you conducted for our team. We are impressed with the plant experience and GateCycle modeling expertise demonstrated during the training.

Our team appreciates the effort you put in creating a very detailed custom training material for us and we are positive that this training would go a long way in helping us in our goal of building thermodynamic models for our fleet. Having gone through the training, the team now has more confident in executing the Gatecycle modeling of our Combined Cycle, Open Cycle and Conventional Fleet.

We look forward to working with you again in future.

Yours truly,

Ir. Dr. Zainul Asri Mamat,  
Senior Technical Expert (GT Performance Enhancement),  
Operation Department,  
Generation Division, TNB  
(zainul@tnb.com.my)
