Attn: Rama Commuri

Dear Rama,

We at Tenaga Nasional Berhad Research (TNBR), wish to thank you for the recently completed project on Thermodynamic modeling and performance analysis of our combined cycle plants. The custom offline solution you created makes it easy for us to perform detailed performance analysis of our plants going forward.

We look forward to working with you again in future and can gladly recommend your company's services to other power plants interested in thermal performance analysis.

Thank you.

Sincerely yours,

(Ismail bin Shariff)
